We heard from communities that there needs to be an easier way to get the right information at the right time. These are our goals:

Coordinated Access

Connect a network of organizations that provide families and communities culturally and/or linguistically matched connections to services and resources.

Family & Community Partnerships

Authentic relationships with families and communities to ensure King County families define the Help Me Grow King County system.

Data Collection & Evaluation

Quality information about the services available to families; increase access to information about the services available to families; and better understand how families interact with services.

Service Provider & Professional Partnerships

Collaborative relationships with early learning, social service, health and mental health providers to strengthen coordination and ways people get information.
