

Building Confidence in Vaccines: from COVID to Routine Childhood Vaccinations

In this 3-part training series, we will increase participants' skills in talking with patients and clients who are pregnant, recently pregnant, or wanting to get pregnant, on covid, vaccines and boosters, and general childhood vaccinations.

This training is for educators, community health workers, providers, social workers, school nurses, and anyone else interested.

[Visit our website](#) for additional information on this training.

Workshop Dates

Part 1:
Tue, July 26: 12-1:30pm

Part 2:
Tue, Aug 2: 12-1:30pm

Part 3:
Tue, Aug 9: 12-1:30pm

[Register Now](#)

La serie de entrenamientos "Creando confianza en las vacunas: desde COVID hasta las vacunas de rutina para niños" será presentada en español los días 17, 24 y 31 de Agosto, 12-1:30pm. Pronto más información en beststartsworkshops.org

Part 1: COVID Vaccines, The What?

Learn about COVID, vaccines, and boosters. This information is critical to building trust with our clients and confidence to discuss these topics.

Part 2: COVID Vaccines, The How?

Learn about evidence-based behavior change and how to respectfully talk to clients about getting vaccinated and boosted.

Part 3: Routine Childhood Vaccinations

Learn about childhood vaccines required for school and childcare entry, like MMR, DTaP/Tdap, varicella, hepatitis B, polio and more. We'll sort out fact from fiction so you're prepared to have informed and open conversations with the families you serve.
